

**Police Electronic Summons
Questions and Answers
RFP#16-03-10**

Hardware:

1. Has the City determined what type of docking stations are preferred (laptop, tablet, or handheld)?

A. The City would like to receive various options.

2. How many handhelds, tablets and laptops, by device type?

A. The City currently has 60 panasonic cf31 in the field, which plug into docking stations.

VCIN Data Questions:

1. Does Roanoke Police Department currently access VCIN data from their vehicles?

A. Yes

2. If RPD does access VCIN data from their vehicles, what system (3rd party or otherwise) does the RPD currently use to run queries and access this data?

A. PMDC and Openquery

3. If a 3rd party provides the query return, can this system provide the eCitation vendor access to this data?

A. Yes

4. Is the indicator data available in the VCIN query return (concealed carry, terrorist watch list)?

A. Yes.
